

Time to GROW

We are a successful international manufacturer located in Schwäbisch Hall, Southern Germany. For more than 35 years, we have been developing and distributing electrotechnical devices for climate control in enclosures. Innovation is our passion, in addition to this we are developing new ideas and concepts for the industry. We are expanding in the area of software and services. Therefore we are looking for motivated and creative employees to join our team:

SOFTWARE MANAGER

FOR JAVA/JEE TECHNOLOGY in Schwäbisch Hall/Germany

Your Tasks

- Establish a new development and design software center with focus on internal logistical business processes.
- Contribute innovative ideas for new and further development.
- Implement the requirements and architecture of Java, using JEE technologies and Java-Web-Frameworks technology.

Our Offer

- Personal responsibility for working with a wide range of different tasks.
- Many opportunities for professional development and advancement.
- Flat hierarchy for fast decision making.

Your Qualifications

- A graduate degree in Software development with experience in Software design.
- Experience in Java and automatically tested scenarios are of advantage.
- A strong affinity for logistic and business processes.
- Good communication skills, team work ability, flexibility and commitment.
- Independent, self-driven and structured working approach with a strong focus on priorities.
- B1 level English or higher.

- A motivated team and a modern workspace, added with an attractive salary and social benefits.
- This job offer is a permanent position in a privately owned company.

We are looking forward to your application including your desired salary requirement and your earliest possible starting date.
